EDUCATION

Master of Science in Computer Science

University of California, Berkeley

Berkeley, California

01/2010 - 01/2012

KEY ACHIEVEMENTS

Reduced Operational Costs

Implemented a new data architecture that reduced company-wide operational costs by 20%.

Increased User Engagement

Led the development and deployment of an AI tool that increased user engagement by 40%.

Series A Funding

Played a key role in securing \$10 million in Series A funding by showcasing technological advancements.

Patents Pending

Fostered a culture of innovation, resulting in the submission of three patent-pending technologies.

INTERESTS

Digital Health Innovation

Passionate about leveraging technology to transform healthcare delivery and improve patient outcomes.

AI in Healthcare

Deep interest in exploring AI applications to revolutionize healthcare technologies and services.
