Network Security · Cloud Computing ·
Data Analysis · Project Management ·
Cybersecurity · Big Data Analytics

CERTIFICATIONS

Certified Ethical Hacker (CEH)

EC-Council, 2021

AWS Certified Solutions Architect

Amazon Web Services, 2020

PROJECTS

Data Integrity Security Tool

Contributed to the development of an open-source security tool to maintain data integrity in cloud environments. See more at github.com/dataintegritytool.

Small Business Cloud Migration Plugin

Co-developed a plugin to streamline cloud migration processes for small businesses, aiming to simplify the transition to the cloud. More details at github.com/smb-cloud-plugin.

EDUCATION

Master of Science in Information Technology

New York University
2013

ZOEY WALKER

INFORMATION TECHNOLOGY SPECIALIST CYBERSECURITY | DATA ANALYSIS

SUMMARY

With over a decade of IT experience, I bring a proven track record in implementing robust IT solutions, enhancing network security, and driving data analysis projects. My goal is to leverage my expertise to advance organizational technology objectives and contribute to mission success.

EXPERIENCE

Techwave Consulting Inc.

New York City, New York

Senior IT Systems Engineer

06/2019 - Present

- Developed and implemented a network security protocol for a corporate network of over 5000 users, reducing security breaches by 45%.
- Led a team of 10 to manage IT infrastructure, successfully delivering 99.9% system uptime and reducing system outages by 60%.
- Optimized data storage and processing procedures, saving the company over \$200,000 annually in operational costs.
- Designed and conducted employee training sessions on cybersecurity practices, improving staff compliance by 70%.
- Managed the deployment of a multi-cloud environment, integrating services from AWS, Azure, and GCP, leading to a 30% increase in deployment efficiency.
- Spearheaded a big data analytics project that provided actionable business insights, boosting annual revenue by 15%.

Innovatech Solutions

New York City, New York

IT Project Manager

03/2016 - 05/2019

- Oversaw the migration of enterprise applications to a hybrid cloud infrastructure, resulting in a 20% improvement in agility.
- Managed budgets of up to \$3M for complex IT projects, consistently delivering within 10% of projected costs.
- Enhanced cross-functional communication through the development of a project management portal, increasing project completion rate by 25%.
- Negotiated with vendors to secure cost-effective solutions for IT hardware and software needs, saving the company 15% in expenses.
- Introduced Agile and Scrum methodologies, improving project delivery time by approximately 30%.

Digital Horizons

Jersey City, New Jersey

Network Administrator

09/2013 - 02/2016

- Maintained and upgraded a network of 200 servers with 99.8% uptime, supporting business continuity effectively.
- Implemented a new company-wide VPN system, enhancing remote work capabilities for 500 employees.
- Reduced network latency by 20% through strategic network reconfiguration and hardware updates.
- Collaborated with the cybersecurity team to robustly tackle emerging threats and vulnerabilities.
